## Open Day 2012

The open day was a successful day. But it comes with pride and a lot of hard work from the teachers and students. The students worked really hard as guides. Some of the visitors said that we are very lucky to be in this school, with nice teachers and a place where we have a big selection of subjects and sport..

One of the visitors was a past pupil. He said that the Christian Brothers were very hard and offered a very limited subject choices. Today I come back and everything has changed. It is very nice to see this school again. That man said "it has been 40 years since I came here'. When the visitors finished their tour of the School, they were brought over to the building site, to see the new Deaf Village.

Mr Herlihy had a group of past pupils from the School and interviewed them about their lives when they left the School, and went on to third level education. It was very interesting to watch their answer about their lives in the 'real world.'

## **Gardái—Social Networking**

Last February, two Gardái came to St. Joseph's to talk to the boys about the dangers of misusing social networking e.g. Facebook and Twitter, as the Gardái take serious action if someone bullies you or your friends.
